About Light Co.

The Light Shop 45 years ago, began with the development of architecture, decorative lights were in place to provide the designers and engineers had become concerned with the presence of abundant light and architectural services, the establishment Little by little become the presence of passionate architects, engineers and designers to come and today we honor the service of two generations have had.

Our distant days of consulting engineers and lighting specialists, gives us existing knowledge and understanding of the science of architecture, color, space and size able to provide accurate advice and design principles are lighting.

At different times according to the demands of existing import policy changes to be confronted with the light, for example, because once representative Brands Targetti-Concord-Staff-Erco become the group with nine powerful factories.
